Work Experience

Full Stack Developer Intern, The University of Hong Kong (HKU)
May 2021 – March 2022

I was responsible for developing and maintaining 3 web applications.

I collaborated with a team of developers to design and implement new features, resulting in a 20% increase in user engagement. I also optimized the performance of existing applications, reducing page load times by 30%.

In addition, I deployed a fresh authentication mechanism, leading to a 50% decrease in login inaccuracies.

I was also responsible for conducting code reviews and providing feedback to other developers, resulting in a 15% improvement in code quality.

Furthermore, I developed a new reporting system, allowing stakeholders to access real-time data, resulting in a 40% reduction in report generation time.

Full Stack Developer, The University of Hong Kong (HKU)
April 2022 – February 2023

I led a team of 5 developers to build a web application that increased user engagement by 30% and reduced page load time by 50%.

I agile practices to optimize the development workflow, leading to a 20% in project delivery rate.

In addition, I developed a custom CMS that allowed content editors to update the website without any coding knowledge, decreasing the amount of time dedicated to content updates by 70%.

I optimized the website's SEO, resulting in a 25% increase in organic traffic and a 15% increase in conversion rates.

Furthermore, I implemented a responsive design that improved the user experience on mobile devices, resulting in a 40% increase in mobile traffic.

I also integrated a chatbot that handled over 500 customer inquiries per day, dismissing the workload of customer service representatives by 30%.
